Green B. Patterson registered at the Constitutional Convention as from Kenna. Kenna will duly appreciate the honor if Mr. Patterson makes good.

Clovis also has a "Green B," but the west end of his name is "Creekmore." Mr. Creekmore is attending the constitutional convention, but not as a delegate. There is where our Green B. has him bested.

TOO MUCH SPICE.

One of our democratic friends in speaking of the makeup of the constitutional convention the other day remarked that the republicans were not the "whole confectionery." He said the reps might be the big cake, but that the dems were the spice. This may be and act conclusion, but in some instances an otherwise mighty good cake is spoiled by too much spice. Let us hope this may not be the case in the Con Con bakerie's output.

The Con Con convened at Santa Fe Monday as per schedule. All the delegates were present but two. Chas. A. Spies was elected president, Geo. W. Armijo secretary. It will take several days probably to get the convention in complete harness, and it will perhaps only get a good start this week.

Roosevelt county broke into the state Fair with a 79 pound watermelon.

Chaves county has gained more in population in the past ten years than any other county in New Mexico.

The people of this country are not all broke. Some of them still have enough of the "rhinoceros" to buy Automobiles—or time. We notice Autos "beeling" around quite frequently of late.

On His Desk.

The ink called the blotter an old soak, then the fight started. The ruler got her foot in it, inch by inch, and, instead of helping her out, the stamps stuck to the envelopes and let the pen holder. The keys were in a bunch, so the pencil lead them away and let the paper weight.

At this stage of the battle the paper knife stepped in, cut out the fight, and silence reigned supreme.—Judge.

HOME

A crust of bread, a pitcher of water, a log cabin and perfect love—there is happiness for you, whether the day be rainy or shi-

ny. It is the heart that makes the home, whether the eye rests on a potato patch or flower garden. The heart makes home precious. It is the only thing that can. Home is where the heart is.

Reaching The Top

In any calling of life, demands a vigorous body and keen brain. Without health there is no success. But Electric Bitters is the greatest health builders the world has ever known. It compels perfect action of stomach, liver, kidneys, bowels, purifies and enriches the blood, tones and invigorates the whole system and enables you to stand the wear and tear of your daily work. "After months of suffering from kidney trouble," writes W. M. Sherman, of Cushing, Me., "three bottles of Electric Bitters made me feel like a new man." 50c at all Druggists.

SLOW TO ACCEPT INVENTIONS

As a People, Americans Have Put Themselves on Record Against Notable Advancements.

We of this big republic complacently affirm the glory of our national achievements, and are not without temptation to acclaim them as proof of superior craft and judgment.

But herein do we forget that we are on record as having cast our vote against every move that has contributed to the present century's development.

We raised our voices in contemptuous protest, against the first projected railways. Had the locomotive waited its signal from the people, it would not yet have started.

When the electric telegraph was shown to us we brushed it aside as a toy, and laughed its inventor to scorn when he offered to sell us his rights for a few thousand dollars.

We put into jail as an impostor the first man that brought anthracite coal to market. We broke to pieces Howe's sewing machine as an invention calculated to ruin the working classes; and we did the same thing to the harvester and the binder. We scorned the typewriter as a plaything.

We gathered together in mass meetings of indignation at the first proposal to install electric trolley lines, and when Dr. Bell told us he had invented an instrument by means of which we might talk to one another across the town we responded with accustomed ridicule, and only the reckless among us contributed to its being—Atlantic.

PRESENT OF SACK OF COFFEE

In Brazil This Is Set Aside for Child at Its Birth—Opened on Wedding Day.

"We have a custom in the coffee raising countries," said Ricardo G. Muller of Rio de Janeiro, Brazil, who is interested in coffee plantations in that country, "which is unknown in other parts of the world. When a child is born in the coffee country a sack of the best grain is set aside as part of the inheritance to be received on attaining its majority."

"Usually the sack is the gift from some close friend or relative, and it is guarded as sacredly as if it were a gift of gold or bonds. No stress would induce a Brazilian parent to use coffee which was made the birth gift of a child."

"As a rule, it is sealed with the private seal of the owner and bears a card giving all particulars about the variety of grain, its age on being sacked, and the birth of the child to whom it is given, and other details, which are very interesting when the gift is due."

"Generally, the coffee is opened for the first time when the child marries. The coffee for the reception or marriage feast is made from the legacy, and according to precedent, this must be the first time the sack is opened. After the coffee is made for the wedding feast the sack is carefully closed and sent to the new home of the young couple, and should keep them in the staple for a year at least."

Real Meaning of Tact.

The real meaning of tact is thinking about others. It means considering what others will think and feel, instead of considering only what we ourselves think and feel.—Home Chat.
